CERTIFICATES / BOOTCAMPS

Completed Full Stack Web Developer boot camp by Colt Steele

Certificate no: UC-KQLZAQN7
Certificate URL: ude.my/UC-KQLZAQN7

AWS Essentials Course by Linux Academy

Certificate no: UC-7e0ce7c8-72f1-4c0e-80e6-6899ecb115e4
Certificate URL: ude.my/UC-7e0ce7c8-72f1-4c0e-80e6-6899ecb115e4

PROJECTS

- Build a real-time chat app using React, Node.js, Socket.io and Express JavaScript. Also group chat feature is added, so that people can chat within respective group & group members.

- Build Twitter clone using React & Firebase. User can login or signup, add comment and like screams. Add & delete a scream. Demo link : Social Media App

- Build a music / lyrics search application using React and Musixmatch API. That give us different track and its's lyrics. Also we get top tracks/ album with lyrics, release information, singer etc.

- Build Shopping cart web app using MERN stack with Stripe payment gateway.

- Build a blog website using Django framework. Has features added like create & modify post, added timestamps for published date & time.

- Todoist clone build with React & Firebase.
